WELCOME TO THE COLLECTION

For the past year, we have looked to cricket to provide an escape; a distraction from one of the toughest periods in modern history. Individual brilliance, great performances, and some world famous names have given us joy when it was most needed.

We look to 2021-22 with renewed hope that cricket – and life as whole – returns to normality.

We can look forward to a year of cricket that promises so much. Starting with the T20 World Cup, the best, most dynamic cricketers in the world gather to showcase their skills.

This is immediately followed by The Ashes series in Australia, which is sure to be keenly contested with a whole host of Gray-Nicolls cricketers on display.

In March and April, Women's cricket will come to the forefront with the Women's Cricket World Cup. The women's game is a key focus for us in 2022 as we strive to become a brand that doesn't just cater, but excels with its offering for women.

The global footprint of the company has grown stronger than ever, with the best players in the world choosing the brand. Kane Williamson, Aaron Finch, and now Babar Azam represent Gray-Nicolls with distinction, at the very top of the ICC rankings. The strength and depth of the player roster speaks for itself.

For Gray-Nicolls, our goal remains the same; to produce the best, most innovative cricket products and empower cricketers around the world. To cricketers at all levels, from all walks of life; whether you are Sir Alastair Cook, or the local legend, if you are with Gray-Nicolls, we are working for you. Being good is great.

Being Better Is Everything.

GEM BATS

A bat designed with the female and youth cricketer in mind - the player looking for lightweight pickup with maximum power output. The mid blade sweet spot creates a super light pickup combined with slightly shorter blade and super short handle allowing for large edge and sweet spot profile to generate increased bat speeds.

Bow:
Even - Mid.

Profile:
Large middle with duck bill shape into toe - creating a large hitting zone and increased bat speed.

Face:
Flat face.

Pick up:
Ultra lightweight pick up.

Edges:
Large edge to match the spine.

Toe:
Square.

Handle:
Super short.

Grip:
Traction: maximum grip.

FIT TYPES

LOOSE FIT: A roomier and relaxed fit, styles might have a longer length than a standard fit.

STANDARD FIT: Not too tight, not too loose. Standard fitting apparel will fit over mid-layers without restricting movement.

SLIM FIT: Athletic fit, close to the body, allows the use of a baselayer when required. Ergonomically designed, performs with the body and doesn't restrict movement.

TIGHT FIT: Garment will fit the body like a second skin.

ABOUT SIZING

Sizing inconsistencies can be attributed to a number of factors and vary according to the different fabrics and cuts in our range. Our Teamwear collection is available in four fits across the entire apparel line. Each is designed to meet different needs for movement, protection and versatility depending on the activity.

HOW TO FIND YOUR SIZE

The Clothing size chart is set up in a table. One axis will lay out the size, and the other will be the measurements in inches and centimetres. Look at the row/columns that best correspond with your measurements and you'll be able to identify your size.

IF YOU ARE BETWEEN TWO SIZES

It's up to you. If you like a tight fit? Go for the smaller size. If you're a fan of a loose fit, then go for a slightly larger size.

HOW TO MEASURE YOUR BODY

CHEST: Place one end of the tape measure at the fullest part of your bust and wrap it around your body to get the measurement, keeping the tape parallel to the floor.

WAIST: Place one end of the tape measure at your natural waist, you want to find the narrowest part of your waist. Don't go up too far or too low to get an accurate measurement. Don't hold the tape too tight or your clothing will be hard to move in.

HIPS: Stand with your legs together and measure the fullest part of your hips. Be sure to go over your bottom as well. It might be challenging to keep the tape consistently level when you do it alone.

INSIDE LEG: The inseam is the distance of your inside leg measuring from the top of your inner thigh to your ankle. It is easiest to measure the inseam based on a well-fitting pair of pants. Measure from the crotch to the cuff on the inside seam of the leg. The number of inches, to the nearest 1/8", is the inseam length. It's best to measure your inseam with a pair of shoes on so that you can ensure the hem hits at the right point on your shoe.
